EDUCATION

B.Sc. in Electrical Engineering
University of Tehran
📅 2017 - 2022   📍 Tehran, Iran

M.Sc. in Computer Science
University of Tehran
📅 2022 - present   📍 Tehran, Iran

PROJECTS

Weather App : *Django, HTML & CSS*
It was a kaggle competition which I trained a model that predict a passenger survived the sinking of the Titanic or not.

House Prices - Advanced Regression Techniques
It was a kaggle competition which I trained a model that predict the sales price for each house using regression techniques.

Social Media : *Django, HTML & CSS*
I trained a logistic regression model to predict whether a student gets admitted into a university.

Handwritten Digits - Neural Networks
I implemented feed forward propagation and back propagation separately for neural networks and used it to predict handwritten digits with the weights provided to learn the parameters for the neural network.

Identify Music based on a short sample played - Signal Processing
First I did preprocessing on sample, then I compared local peaks of the sample spectrum with collected music data base to find the related music.

COURSES

Passed
- Advanced Programming
- Data Structures and Algorithms
- Algorithm Design
- Introduction to Databases and SQL Querying
- Machine Learning

Current
- Neural Networks
- Statistical Inference
